

LK Zone Control 2-way (NC)

LK Zone Control 2-way (NC) for automatic control of one LK Manifold. 1" control valve incl. electrothermal actuator 24 V AC.

To be supplemented with LK Room Thermostat S1 24 V AC (NC), LK Connection Box 1 and LK Transformer 230/24 V AC. Alternatively LK ICS 1 wired or wireless room control.

The heating system shall be provided with temperature control equipment for shunting of the secondary flow into the manifold.

LK Zone Control is also available with 24V 0-10V DC actuator. Used eg. for C.S.C. (BMS) connection.

Pipe connection to LK Zone Control can be done preferably with LK Joint Nipple, LK Half Coupler, LK >B<Press Transition and LK Connection Set.

Article	Dim.	Voltage	Packaging
241 98 97	1" male	24V AC	1
241 98 98	1" male	24V 0-10V DC	1
