# STUDIO COLLECTION ZEHNDER FOLIO BELT

With its extremely slim body, smooth surface and slightly tapered silhouette, the Folio from the Zehnder Studio Collection impresses with its unusually light and floating design. The design of this radiator, which is just 16 millimetres thick, is only made possible by the development of innovative construction elements and composite materials. The unusually thin Zehnder Folio is an innovation in heating technology. Depending on the finish, it either blends harmoniously into the room or becomes a centrepiece. Surfaces with oak, wenge, macassar ebony or anodised aluminium veneer generate heat elegantly and efficiently. In the Zehnder Folio Belt version, with one or two towel rails, it offers style and comfort in the bathroom,

## Advantages

- Compact design and uniform surface
- Vertical version for living areas
- Folio Belt version for the bathroom, with one or two chromed towel rails, depending on height
- Available with conventional connections or with the newly developed variant with integrated valve
- Available in all colours of the Zehnder colour chart or chromed
- Also available in exclusive finish variants on request
- Available for hot-water operation

## Overview of models

Dimensions in mm

## Connection to hot water central heating system

Version with towel rail
